

Dear Stenzel:

This is just to answer your question hurriedly:

Bederke's address is: Göttingen, Geologisches Institut der Universität, Bahnhofstrasse. Brit. Zone.

Is is one of those who has been found trustworthy and whose past is o.k. and he is Professor of Geology and Stille's indirect successor. Karl Rode lives at Aachen, Höfchensweg Brit. Zone.

If you should ask for the address with a thought of a possible package in mind, I am enclosing a "care" blank. By far the cheapest and most efficient way of sending packages. I have send many and they all arrive within 3 months.

Please excuse this miserable slip of paper, but I have been sick for several months (heart attack) and am just getting up again. Things have accumulated and I wanted you to have an answer soon.

Kindest regards sincerely yours
