Mr. R. D. Woods
1040B Humble Bldg.
Houston 1, Texas

Dear Mr. Woods:

Your collection of fossils from Alabama was very pleasing, and I appreciate greatly that you thought of me. If we are going to teach a thorough course in Tertiary stratigraphy and paleontology here at the University, we will have to have not only instructors and students but also materials to work with, and such material as you have sent will be of great importance. So please accept my thanks.

I am in and out of town this month, but would like to talk with you very much if you come to Austin. It might be well for you to check up before coming whether I'll be in. Give my best regards to Mr. Rolshausen.

Sincerely yours,

H. B. Stenzel
Geologist
