MEMORANDUM

To: H. B. STENZEL

From: R. C. MOORE

Dear Henryk: Thanks for returned oyster typescript pages. Changes requested have been entered. Now, if only your systematics could arrive so as to allow winding things up. Rudist text and figs. have been organized despite great editorial difficulties in integrating Dechaseaux, Cox, Coogan, and Perkins. Oysters, if served, are the last course--no dessert. I note with interest your permanent change of address. Have happy days.

My middle initial stands for "blind"--not contentment.
