Dear Dr. Stenzel:

I was shocked and very sorry to hear of your recent illness. I hope that you make a rapid and complete recovery.

Thankyou very much for the identifications. They seem to fall in line with my thoughts on the stratgraphy of the area. I placed the beds that contained the fossils you identified in the McBean or Lisban equivalent. I feel that this bed is slightly younger than the Kymatox lapidosa z one of the McBean. I will send you at a later date a correlation chart that was included in my thesis.

I plan to publish the results of my work as soon as possible. I find the speed of living somewhat accelerated in getting squared away in my new job.

Thank you again.

Sincerely,

FOOTE MINERAL COMPANY
