Professor Yasuhiko Kamada
Department of Geology
Nagasaki University
200 Ohashi-machi
Nagasaki City, Japan

Dear Professor Kamada:

Thank you very much for sending me copies of your three fine publications. I notice with pleasure the very fine quality of the plates to "Tertiary Marine Mollusca from the Joban Coal-field, Japan." The quality of the paper is good and the printing very clear.

Very truly yours,

H. B. Stenzel
