

The University of Melbourne

Geology School,

Melbourne, No. 10th. February 1949

Dr. H. B. Stenzel,
Bureau of Economic Geology,
University of Texas,
Austin,
Texas, U.S.A.

Dear Dr. Stenzel,

Many thanks for your letter of 2nd. December and for the slab with Deltoidonautilus ellioti. The latter arrived today and I am very glad to add it to our collections. Some time I shall have the specimens properly prepared and they ought then to make good exhibits.

I am glad my observations on Nautilus were of some interest. Please use them as you think fit. I shall, of course, be very interested in the outcome of your studies.

Here in Victoria we have many fine Tertiary sections, but unfortunately my knowledge of them is rather superficial. However, if you are interested in any particular group or species, we would be glad to make an effort to satisfy your requirements.

With kind regards,

Yours sincerely,

C. Teichert
