

693 Claremont Avenue
Montclair, N.J.
29 July 1958

Members Ad hoc Subcommittee on Intercontinental Correlation and Cooperating
Consultants:

Highly learned Colleagues:

1. Dr. Henryk E. Stenzel, Shell Oil Co., 3836 Bellair Blvd., Houston 25, Texas, has recently improved in health sufficiently to have been able to accept a renewed invitation to serve on this subcommittee. He has been cooperating with our committee for several years by way of Jack Wilson.

2. Ned Colbert has agreed to serve as consultant for correlations with eastern Asia.

3. Dr. Stenzel dissents from my maltreatment of Danians; I have suggested calling it "Thoreau?" O.K.?

4. Pat is back from South America, I trust, presumably full of information about N - S correlation. However, I haven't received any, yet.

5. George has got out in the field in N.M., and even collected some fossils!

6. If some of you would share your views with me, before the Ann Arbor meeting it might help my report for the whole committee. I start out, tomorrow, for the field. Here are some addresses;

Until 1 August, Care Dr. J.D. Rupp,

S.D. School of Mines and Tech., Rapid City, S.D.

Until 15 August, Care Dr. A.H. Lohse, Sussex, Wyoming

Until 23 August, Care Senator John Wiley, Hinckley Springs, Montana

Until 3 Sept., Care Dr. L.M. Selrich, Dept. of Geology, Univ. Mich., Ann Arbor, Mich.

Cordially yours,

Horace E. Wood, 2nd

Horace E. Wood, 2nd
Chairman
