Dr. H. B. Stenzel
Texas A. & M. College
College Station, Texas

Dear Stenzel:

Your application for admission to the American Association of Petroleum Geologists has been received and I take great pleasure in signing it and am today forwarding to Mr. Hall. I am sure that the Association will be pleased to welcome you as a member.

I am interested to know that you have applied for the position as head of the Geology Department at the University of Mississippi. I sincerely trust that you will obtain this position, and if I can be of any service to you I shall be glad to assist in any way possible.

I am hoping to get over to see you one of these days but it seems that I am pretty much confined to work in this part of the country.

By the way, what is the status of the collections which I sent to you some time back and which you were identifying. Have you gotten this pretty well along and have you gotten me a good set of specimens? At any rate, I do not want you to get away from A&M without me having a set of these samples.

With best regards,

Sincerely yours,

BCR:da
