Dear Henryk:

We have promptly sought to put our hands on the four papers cited longhand in sheet accompanying your letter to me of 5 March 1965. I found the three Russian papers, none of which seems to be very significant, but do not have the paper by Valduga which we are seeking.

I send Xerox copies of parts of the Russian papers so that you may see their scope. You will note one new generic name which is a nomen nudum.

What is volume number of Rengarten, 1964 article in Akad. Nauk. SSSR Geol. Inst. ? [KU has 100-105, 107-110, and 114.]

With best wishes,

Sincerely,

Raymond C. Moore
