Miss Josephine Casey  
Administrative Assistant  
Bureau of Economic Geology  
University of Texas  
Austin, Texas 78712

Dear Josephine:

Please have the kindness to send a complimentary copy of H. B. Stenzel: Decapod Crustaceans from the Cretaceous of Texas: Univ. Texas Pub. 4401, p. 401-476, to Dr. R. Forster, Universitäts-Institut für Paläontologie und Historische Geologie, München 2, Richard-Wagner-Strasse 10/11, Germany.

I have had a very severe illness in January and spent a week in the hospital. I am still very weak and have great difficulties in keeping my nose to the grindstone. Old age must be catching up with me.

I hope your health stays in perfect condition. Best regards.

Sincerely,

H. B. Stenzel  
Visiting Professor
