

Dear Tom,

this is mostly to try out whether I have followed the instructions correctly to get rid of a bug in my Van Hise machine. One which has been bugging me for some months. It probably won't work. * So before I get mad let me say that I have Karl's letter, just fine, and you might tell him that the chances I will need a parking place are probably less than one in a hundred = unless he means "Bicycle=parking=place".

I think the going to Minneapolis and the coming back will work out with no problems whatsoever. I look forward to hearing you there, and showing you the great clutter that the office has. It will be better pretty soon, as the workmen get out of the way. But I probably won't be moved down to the basement until August, which will keep August very busy with all sorts of moving.

6 April 1989

Yours,
