A. and M. College,
College Station, Texas.

Dear Stenzel:-

As a result of the recent merger of the Vacuum and Magnolia I am looking after the geological work in this district for the Magnolia and my address is 2110 Alamo National Building, San Antonio, Texas, in case you wish to communicate with me.

I am writing to inquire if you desire me to ship any more of the Tertiary fossils collection to you. I hope to have the opportunity to stop at College Station and get the Claiborne collection, of which you advised is ready to be sent to me. This will save you the trouble of shipping it to me.

Very truly yours,

B. Coleman Benick
