

September 6, 1938

Ward's Natural Science Establishment  
202 Goodman Street, North  
Rochester, New York

Gentlemen:

In reply to your inquiry of July 26, 1938, I would like to state that I do have a considerable number of Midway-Wilcox fossils. However, not sufficient duplicates to replenish your stocks.

It is possible that Dr. Lyman D. Toulmin, Geology Department, A. & M. College, College Station, Texas, might find a way of obtaining material for you as he is a native of Alabama.

Very sincerely yours,

H. B. Stensel, Geologist  
Bureau of Economic Geology
