Dear Bennett, thanks for your letter of July 11, and for having asked the library to get a copy of Le iscrizioni minoiche and put a summary in Nestor. I have no interest in the sale of the monograph but I am glad if it is good because it is practically the only way to have the monograph known around. By the way; did you get your own complimentary copy. I sent it to your address at the U. of Texas imagining you'd be back by now. I shall be in N.Y. next September (c/o Vanni Publications, 30 W 12, NYC 11, just in case you happen to be there and will let me know your whereabouts). Thanks for your promise to send something for Minos as soon as possible. The German enterprise is a most regrettable action in order to create definite confusion among non-specialists as to the value of Ventris' decipherment.

Sincerely yours  
E Penzance
