Dr. H. B. Stenzel
Department of Geology
University of Texas
Austin, Texas

My dear Doctor Stenzel:

I have just received the reprints of your papers on decapod crustaceans and Eocene nautiloids. I have followed your work with considerable interest and I was more than ordinarily interested in your paper on the genus Aturia. Most of my earlier studies as a student was done in the Cretaceous and Tertiary of the Gulf Coastal region and I am still very interested in any work on that part of the section.

With my best personal regards and thanks for these reprints, I remain,

Cordially yours,

M. L. Thompson
