

# MAGNOLIA PETROLEUM COMPANY

A SOCONY-VACUUM COMPANY

## PRODUCING DIVISION

San Antonio, Texas  
December 12, 1932

Dr. H. B. Stenzel  
A & M College  
College Station, Texas

Dear Dr. Stenzel:

This is to acknowledge receipt of your letter of December 5th and in regard to the question which you asked me regarding the investigation of acreage in Grimes County, will say that I am unable to give you any advise as to whether or not to make any investigation free of charge to a person digging a wildcat well.

I believe that the Leon County acreage play is going along slowly but satisfactorily.

Sometime back you told me that if I would furnish you with a list of the Claiborne fossils that I have that you would check it over and furnish me with those which I did not have. The list is enclosed herewith.

It is possible that I shall be in Brazos County within the next week and if so I shall drop by to see you.

Yours very truly,

BCR:da  
enc

## LARGE BOX:

Surcula	Solarium Scrabiculatum Conrad.
Mesalia Claibornesis Conrad.	Venericardia trapaguara var.texalana
Ostrea Sellaeformis	Rimella Texana Harris Var Plana
