Dear Dr. Stenzel:

I am enclosing a statement of expenditures incurred during the summer field season. I am to include it in a biographical sketch and report of my fellowship work that I have to send to the Board. I will appreciate it if you will sign the form as Chairman of my committee and return it in the enclosed envelope.

Am still plugging at the gastropods and feel as if I am making progress. Am anxious to see the microfilm of Wenz. I am using Cossmann most of the time now.

Hope that this finds you and your family in the best of health.

Cordially,

Bill
