Dear Mr. Stenzel:

We plan to open the Paleontological Meeting Thursday morning at 10:AM. The Applin's paper will be given from 9 to 10:AM in the joint meeting Thursday morning, so there was no use opening the S.E.P.M. meeting at 9:AM as all the paleontologists will want to hear that paper.

If you will present Mr. J. Harlan Johnson whose paper is 1st on the program at 10:AM at the meeting and let him preside at the morning session, you can then handle the business meeting 11 to 12, take charge of the afternoon session. If you care to relinquish the chair to the new president or any of the professors you may do so. We are depending on you to handle the meeting, as we are not sure what procedure has been followed in the past. I have a faint recollection that the president elect, if present, presided through a part of the meeting.

Thanks and best regards,

James A. Waters
