Dr. H. B. Stenzel
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel;

Mr. L. R. McFarland, who accompanied me on the collecting trip, has the collection in Jackson, Mississippi, at present. We still want to have you see the fossils, and help us with the identifications, but just don't know when we will be able to get down to see you. I am sure it would be practically impossible to make it this week-end. I'll try to get in touch with you a few days in advance when we find that we can make arrangements to come.

Many thanks for your kind interest.

Sincerely yours

C. I. Alexander
