Not sent, apparently

Jan. 22

Dear Mr. Rice,

Maurice Pope has suggested to me that you may not have for SM III the fragment of a steatite libation table from Knossos, Oxford 1923.661, with  , not published so far as I know. He may of course be mistaken. There may be more bits of Evans's stuff which has escaped notice and it might be worth checking up some time. Pope is coming in June and could no doubt do this.

Yours sincerely,

John Boardman

(Asst. Keeper)
