

November 6, 1952

Dr. Siemon Wm. Muller
School of Mineral Sciences
Stanford University
Stanford, California

Dear Dr. Muller:

Your letter of October 28, 1952, is most welcome; so far you are the only person who has taken the trouble to discuss the shortcomings of the Nautilus paper. I would rather have criticism and corrections now, than after the final form is reached.

Moore sent me a few reprints after all, so I am sending you one copy.

As to your remarks, group (1) should be sent to Dr. Curt Teichert, group (2) to Teichert and R. C. Moore, and group (3) to me. I would like to have copies of all the remarks you are going to send out, if this is agreeable to you. If you wish to send a complete statement to me for digesting and transmitting, it might work out well--that is up to your choice.

With best regards.

Sincerely yours,

H. B. Stenzel
Geologist
