Aug. 7, 1942.

Mr. H. B. Stenzel. Geologist.  
University of Texas.  
Austin.

Kind Sir,

I have just received a few more specimens which, I thought, might be an increase in your collection. I am not urging the exchange, I know that you are quite busy, doing field work most of the time. but, I wish to assure you that I would be proud to exhibit any compensation either stones or shells that would be sent by your institute.

Very sincerely yours.

Sister Marie Caroline
