Houston 1, Texas

Dear Henryk:

Thank you very much for your letter of January 3. I am glad to hear that you are willing to act as a joint author for the proposed lignite paper. At the present time Fisher is working with Rodda on the high purity limestone project and it will probably be some months before he can get started on the lignite work. He will be in touch with you in this regard. Thanks for the tip on the reports of the State Mine Inspector. We shall get after these.

With very best regards, I am

Yours very truly,

PETER T. FLAWN  
Director
