Re: Mont. G. Calvert

Dear Sir:

I am receipt of your inquiry concerning Mr. Mont. G. Calvert. Mr. Calvert was one of my students at the Agricultural and Mechanical College of Texas. During that time I had occasion to get well acquainted with him.

As a student he was well above the average of his class and made a distinct impression of being intelligent. I found him honest and reliable in his work. His preparation in Geology and related subjects was thorough and efficient. He is well prepared to occupy a junior position in Geology. His preparation was sufficiently varied to be adaptable to foreign conditions.

As to his qualification for a foreign field, allow me state that he has that very important qualification, namely common sense, which I believe is essential. His military training at the College should be a distinct asset in this connection.

I believe you will find him honest, reliable, and capable. He has my unqualified approval.

Very truly yours

H.E. Stenzel, Geologist
