

June 4, 1953

Mr. Robert P. Waldron
2503 Wisteria Street
New Orleans, Louisiana

Dear Mr. Waldron :

Dr. Grover Murray gave me your address and stated that you might be interested in becoming a research assistant here at the Bureau. Research assistants are usually employed from September 1 to August 31. The salary range is \$190.00 to \$280.00 per month depending on qualifications. Since they are employed full-time and do a good bit of field work, they cannot do class work during that time. However, nearly everyone of the past assistants has gone on to get an advanced degree here by using some of the other openings or scholarship.

Please let me know whether you are interested.

Very truly yours,

H. B. Stenzel, Geologist
