Department of Geology

March 4th 47

Dear Henryk :-

I was shocked to hear of Fred Plummers' death. Altho I have seen little of him in recent years I have always considered him one of my very good friends. Can you let me know briefly what happened?

Fred has an article in the forthcoming number of the Journal & galley proof has been sent to Austin I don't wish to bother Mrs. Plummer about this. Can you look it up & get it back to us? The March number is going to be very late thru no fault of ours & I hope that this paper will not hold us up further.

Sincerely,

J. Marvin Willer
