

November 2, 1940

Dr. J. W. Huddle
Geology Department
University of North Carolina
Chapel Hill, North Carolina

Dear Dr. Huddle:

Many thanks for your letter of October 26.

I am sending you by separate mail some of my recent separates and hope that they will prove useful to you.

A collection of fossils is being prepared for you now. It should be ready to go off in a few days.

Any time you have additional material for exchange, please do not forget me. You are doing me a distinct service and favor with these exchanges.

I am glad to have Mr. Cormack's name and address and shall write to him. If you know of any other local collector, I would be glad to have his address.

Cordially yours,

H. B. Stenzel, Geologist
