The International CCS Knowledge Centre has launched a new video series. The series, "Lead. Care. Adapt," features 10-minute discussions with sustainability experts working to advance climate action including the role of carbon capture and storage (CCS) around the world.

In the second video in the series, GCCC's Katherine Romanak talks about the opportunities for CCS in developing countries and explains the support available to these regions to help move projects forward. Watch the video to learn what the Gulf Coast Carbon Center is doing to lead, care, and adapt today for a better tomorrow.
