Dr. H. B. Stenzel
Shell Oil Company
3737 Bellaire Boulevard
Houston 25, Texas

Dear Dr. Stenzel:

We are sending you, under separate cover, a copy of Bulletin 38, "Stratigraphy and Zonation of the Ocala Group," which gives detailed geologic sections from which the various crabs species were collected and sent to you for study. These sections are listed alphabetically under counties beginning with page 58.

I hope your studies on the Ocala crabs are progressing satisfactorily.

Sincerely yours,

A handwritten signature in cursive script that reads "Harbans S. Puri".
