Dear D. Stenzel, I saw Preston Cloud today who said he had seen you during his recent visit to Texas. I am looking forward to this visit of mine although most people say it will be hot. My present intention is to leave Washington for Austin on Thursday May 24th or 25th and stay there over the weekend and would give me time to recover from the strenuous time here before another strenuous time with you & the boys.

I shall let you know the exact date of my arrival as soon as I have been to the Australian Embassy to arrange transport.

With kind regards

Yours sincerely

Dr. Arne C. Aspin
S.M. Professor
