Dear Mr Bennett ,

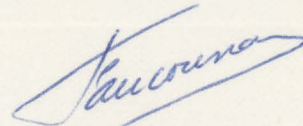

Would you be kind enough to publish in the next issue of NESTOR the following advertisement :

I <sup>me</sup> heard from Pr Paul Faure that in the 50-ies an antique dealer in Athens was offering a disk similar to the Phaistos'. This disk was probably a fake. I would nevertheless appreciate if someone could give me some more information about it. In particular were new signs on it and approximately how many ?

Thanking you in advance, I remain

Very sincerely yours
