Dr. H. B. Stenzel,
Bureau of Economic Geology,
University Station Box B,
Austin, Texas

Dear Dr. Stenzel:

I have your letter of March 18th and I also have the new "Cretaceous Crustaceans" which you so kindly sent me, and for which I thank you cordially. I can only think of the hours and days of work and thought and research you have devoted to bringing it finally off the press in the form in which it is so valuable and interesting to even a tyro such as I.

I note your request for addresses. You can address Mrs. R. A. Grimmer, 5139 Denley Drive, Dallas 8, Texas.

I am not sure as to Mrs. Forrest Kirkland but I think you can reach her "Care Art Department, Baylor University, Waco, Texas." I believe she is majoring in art, in which she is proficient.

I am sure that both Mrs. Grimmer and Mrs. Kirkland would treasure a copy of your paper.

If I can serve you at any time up this way I will be happy to do so.

I did not have a chance to get out among all those interesting fossils around Ardmore, Okla. but perhaps an opportunity will come later.

With best wishes,

Sincerely,

Fred. T. Moseley
