Mr. B. W. Blanpied
Gulf Oil Corporation
Shreveport, Louisiana

Dear Mr. Blanpied:

I am sending you by separate mail some of my recent reprints among which is The Yegua Problem. I would appreciate it greatly if you could find time to write a review of the article on the Yegua problem for the A. A. P. G. Bulletin. It is necessary to draw the attention of the Coastal Plain geologists to this article some way or other, because otherwise it would be overlooked.

Cordially yours,

H. B. Stenzel, Geologist
