

# HOUSTON OIL COMPANY OF TEXAS

HOUSTON, TEXAS

FEBRUARY THIRTEENTH

1 9 4 1

Dr. H. B. Stenzel, President,  
Southwestern Geological Society,  
Austin, Texas.

Dear Sir:

I wish to acknowledge with thanks your letter of February 12th, 1941, concerning the presentation of a paper before the Southwestern Geological Society in Austin, Texas. Mr. C. H. Sample, Geologist with this Company, jointly with the writer, has prepared a short paper dealing with the Oligocene stratigraphy of the East White Point Field of San Patricio County, Texas. This paper deals primarily with a very interesting erosional unconformity in the subsurface, which unconformity may be associated with the transgressing, regressing sea theory.

We shall be pleased to present this paper before the Southwestern Geological Society on any date that you suggest, exclusive of February 21st and March 13th at which times it will be read before the South Texas Geological group and the Houston Geological Society, respectively.

Very sincerely yours,

  
Chief Geologist
