Dear Prof. Bennett:

I am sorry that it has taken me so long to write to you since your visit here last month. It is, as you might know, a busy time of the year at the School.

The new ephor of Olympia is Mr. Konstantine Tsakos. We would write to him about the possibility of having some photogrammetry done at Pylos, as soon as you give us a formal request. I do think that this would be the best way to proceed.

I don't know how you are getting along in finding a photographer to do this work. I know that we had similar work done at Cyrene by Graydon Wood. I don't know where he is now, but Donald White at the University Museum at Penn. would know.

After you left, I ran across a set of negatives of the Pylos tablets, numbered 1 to 521. Just today a set of prints, labeled "property of Univ. of Cincinnati", of the Pylos tablets turned up. They seem to include numbers 1 through 509, as well as several close-ups of fingerprints on the tablets. You may wish to inform Tom Palaima of this. I will write Caskey about them since his name is on one envelope of the prints.

I hope that this is of some help to you. I am

sincerely yours,

Murray C McClellan
