Dr. H. B. Stenzel
Shell Development Company
P. O. Box 481
Houston 1, Texas

Dear Dr. Stenzel:

Our manuscript on the A. petrosa stock has been received in good order. Your patient and careful reading of our work is very much appreciated by all of us. No other criticism or remarks would be valued as high as yours.

We are now in the process of looking at our work in light of your remarks and suggestions. After we have had a chance to review and revise certain parts of the manuscript we would like to visit and discuss it with you. Just now Pete is immersed in getting his invertebrate paleontology course at the University underway. However, soon we will call or write to make a date with you.

Again, thanks for your remarks. Your time and effort are much appreciated. Best regards.

Sincerely,

WILLIAM L. FISHER
Geologist
