

January 26, 1936.

Mr. Carroll Lane Fenton
Editor, The American Midland Naturalist
West Liberty, Iowa

Dear Sir:

By separate express package I am sending you a manuscript on fossil
erabs for publication in THE AMERICAN MIDLAND NATURALIST. I have tried to
adapt it to your editorial policy as far as I could.

The manuscript was read by Mr. Plummer. He seemed to like it very
much. I presume he will write to you about it.

Natprally, I would appreciate an early printing.

Very sincerely yours

H.B.Stenzel
