

November 4, 1955

Mr. Maxwell Smith  
Lantana, Florida

Dear Mr. Smith:

I am very glad to have your letter of October 28 and am happy to know that the Boone exchange fossils were of use to you.

We have here a collection made by Dr. Barnes on the beaches of Galveston, Texas. This collection is much better than the last I sent you and I believe that it will be of interest to you. I presume Dr. Barnes will have no objection to sending his collection to you for identification later on. I shall talk to him about this.

Very sincerely yours,

~~H. J. Sollard, Director~~
