

Dear Dr. Stenzel

We're finally located in Denver and ready to settle down to a little work. I was in hopes of seeing you again before leaving but the schedule proved fairly tight. The time we were able to spend together was most enjoyable. It had been such a long time since we last visited. Doc, you're certainly to be praised for the fine job you have done by the girls. I know it has been tough all alone but you've done a wonderful job. Yetta is such an attractive young lady and has such poise. I know you must be very proud of them.

I had a short note from Mr. Dukster saying that you two had a very nice visit. It was such a shock to learn that he had undergone surgery. I have no final word as yet but hope no malignancy is involved. You will find Mr. Dukster to be quite alright in every respect. Of course, you already know him from the time he was in Houston before being assigned to Tulsa.

Our best regards to the girls and again it was nice seeing you.
Sincerely John Bookout
