Dear Pete,

Yrs of 31 Aug says all MSS must be forwarded despite time + risk, and that SD must try to procure MSS. This is a tough assignment. I'll try to carry it out if you really want it that way. But you'll have to get that list of prospects to me; have no copy.

Scripta III is a very different matter. My sentiments are clear, but my successor (whichever) is so much involved that probably I ought to consult him. Your letter to Myners will do I presume for the present. — Yrs. Sterling
