April 15, 1937

Dear Mac:

I am very happy to have your last letter because I was getting worried about your family. I hope every thing will turn out alright. Please come and see me as you drive by northward. We are living now at 208 E. 33rd, which is northeast of the campus. Telephone number 3485, the same as usual. I have been mapping north of Smithville and have several nice faults which are however not very large in throw. I hope I can nurse them as I trace them northward. Maybe they will grow into something. Well, good luck to you and let me know about the results.

Cordially yours,

H. B. Stenzel
